DEAI definitions

Diversity, equity, accessibility and inclusion (DEAI) is not just a phrase; each word speaks to distinct values. In having conversations with candidates, it is helpful to purposefully provide definitions for diversity, equity, accessibility and inclusion allowing for a thoughtful conversation.

**Diversity:** The representation of different and unique identities, characteristics, experiences and perspectives.

**Equity:** Giving everyone what they need to succeed by increasing access, resources, and opportunities for all; especially for those who are underrepresented and have been historically disadvantaged.

**Accessibility:** The practice of making your products, devices, services, or environments usable by as many people as possible.

**Inclusion:** A welcoming culture in which differences are celebrated and everyone is valued, respected, and able to reach their full potential.
