Cape May MAC policy is that drone use is prohibited absent a permit at its three historic sites, the Emlen Physick Estate, the Cape May Lighthouse and the World War II Lookout Tower. The state Department of Environmental Protection additionally prohibits drone use at the Cape May Lighthouse and the World War II Lookout Tower. Please note that drones might indicate to the flyer they are flying in FAA approved areas yet still require permission from New Jersey property owners. From [NJ.gov, Department of State](https://www.nj.gov/department-of-state/) website: "Drone operators must obtain permission from the controlling entities in the areas where drone photography will be taking place: local municipalities, parks departments, the Department of Transportation, etc. In some cases the State Police, must be formally notified."
